6.5.1: Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes. It reviews teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals and records the incremental improvement in various activities

In line with the requirements, an Internal Quality Assurance Cell (IQAC) was formed in the year 2021 with the intention of directing quality assurance strategies and processes towards the organisation. This decision was made in order to fulfil the intended goal.

AIM: It is essential to give the organisation with the most modern infrastructure facilities in order to accomplish the goal of transforming it into a Centre of Excellence. Because of this, the organisation will be able to meet the requirements to obtain accredited by the NAAC. to foster and practise the development of creativity and motivation, which will lead students towards the inculcation of professionalism among them, in order to cultivate and practise the enhancement of creativity and motivation. By establishing national and international partnerships between the domains of pharmacy, biotechnology, and information technology, it is required to solve the issues that are confronted on a worldwide scale. In addition to offering training for educators, researchers, and regulators in their respective professions, the objective is to establish an e-learning system for students that is of a quality that is on par with the best in the world. In order to widen the scope of research operations into new directions and developing markets, we will be conducting research.

IQAC is going to build processes and procedures for assuring the timely, efficient, and progressive execution of academic, administrative, and financial duties in order to guarantee the maintenance and improvement of quality. This will be done in order to ensure that quality is maintained and continues to improve. In addition to the relevance of academic and research programmes, the quality of these programmes is also very important. ensuring that all members of society have equal access to educational programmes that are also within their financial means in order to accommodate a diverse variety of social sectors In addition, the Internal Quality Assurance Cell is accountable for carrying out internal audits for each and every department during the course of each and every academic year. The counsel that this cell offers also includes instructions on how to begin professional activities that include a number of different departments. The confirmation of the Institutional Academic Plan for each and every course takes place a significant amount of time before the commencement of the semester in which it will be implemented there. The institution has implemented a very effective internal communication system that consists of both physical circulars and social media groups so that employees may communicate with one another. An overview of IQAC's initiatives: Agreements of Understanding (MoUs) pertaining to Quality initiatives that are formed in conjunction with other institutions An Institutionalised Cell for the Promotion of Entrepreneurship Both the Instruction and Job Placements provided by the R&D Cell Instructional and educational programmes that are add-ons or certificates that use cellular patent strategies Structure for the Purpose of Mentoring The disparity between students who are rehabilitating courses that are advanced and those who are learners who are below average It is the Course Files.
