Description	<p>On November 20, 2021, the NSS Committee organised Social Awareness program on "Sadak Suraksha Jeevan Raksha". Road safety awareness is crucial because it helps reduce the number of injuries and deaths on our roads. To stay safe, one must know the proper way to drive a car and not rely on in-car technology like a navigation system. It can be challenging to know how much space one needs when driving a large vehicle like an SUV or a bus, so keep in mind that one should leave enough room for emergency vehicles if there is one nearby. Proper knowledge and education on road safety rules are required while driving or walking across the streets.</p> <p>Road safety is the prevention of road accidents by obeying the road safety rules and regulations. The most important factor of road safety is the need for skilful and cautious driving so that passengers, pedestrians and drivers stay safe. Developing better roads is also important to avoid road accidents.</p>
