I learnt 4 years in college but I am not having proper practical knowledge.
Institute should make some efforts toward to improve the practical knowledge of students.
Some of the teaching staff really take efforts to improve the level of students knowledge and skill but some teachers don't take efforts as well as not explain concepts clearly of topics. they only read slides.
Institute should appoint only those teachers who have proper knowledge about their respective subject.
Guide the students about competative exam such as gpat, gate, gat-B, Niper ,MBA mhtcet etc.
Institute should take efforts to available placement opportunities in college.

I think the institution should have work on campus placements .The institute have to be enhance opportunities to students like Internships, Industrial visit,hospital visit also they have to be work on proper guidance to students for their development such as many skills ,soft skills and mostly students & teaching non teaching staff interaction ,communication.Something should be done so that the students have the courage to speak to the Institute Din without fear, to express their thoughts. mostly institute have to understand , listen and resolve the student problems .
